With the stars of Union undrooped and true!
Arise and defend it ye sons of the brave,
Whose blood bought it the banner your valor must save

MONDAY MORNING AUGUST 26 1861

The State Fair

The State Fair, which is to be held at Oregon City on the 1st, 2d, 3d, and 4th October next, ought to be regarded with favor by the farmers and mechanics of this State as well as by all other citizens. The main business of Oregon—that on which all others is based—is farming. When farmers prosper, all other branches of industry flourish. It is the especial interest, therefore of the people of Oregon, to do all in their power for the prosperity of agriculture.

Agricultural Societies are especially instituted for the benefit of the farmer. At their Fairs, the best stock, grain, vegetables, agricultural machinery, products of the orchard, of the dairy, and of household industry, are brought. We see the advantages of fine stock, whether it be horses, cattle, sheep or hogs. The raising of improved stock pays better than common stock. A good horse is worth three times as much as a scrub. A good Durham beef steer will sell for three times as much as a common steer of the country. Good sheep are of far more value—whether they are grown for mutton or wool—than common sheep. And the improved breed of hogs, mature sooner and fatten better by far than the all gator race of the country. All these facts are made obvious to the eye and understanding, when we visit a well patronized Fair.

We might continue the same character of facts, in regard to fruit, vegetables, agricultural implements, &c. It is a truth that while some farmers obtain only twenty cents, and perhaps less, for their butter, others get prices from twenty-five to thirty seven cents all the time. Why? Because the butter made by one family, put up as it ought to be, is greatly superior to that made by the other. Similar facts may be stated in regard to cheese. That made by Dufour, in this County, is equal to English cheese, while other cheese we have seen here is of an inferior quality, and some can scarcely be eaten for its worthlessness.

But we are not about to go into a detail of facts to prove what must be obvious to all farmers—the advantages of Agricultural Fairs. Our object is now to call the attention of our farmer readers to the State Fair—to seek to impress upon them the necessity of attending it, with their families; the bringing of the best of their stock and of their farm products for exhibition; and we promise them, on the part of the Society, that every effort will be made to make the Fair interesting and useful to them. The experience of all the countries of Europe, and of all of the Eastern States, has been in favor of the usefulness of Agricultural Fairs—so much so, that the greatest and most patriotic men in the countries named, have given them their countenance and aid. Scarcely a Legislature of the States can be found, than has not by direct appropriations from their treasuries, assisted in making the Fairs useful to their people.

We desire to see all our farming brethren, who can possibly do so, attend the State Fair, and we shall be glad also to see present their wives and sons and daughters. It is becoming a usual practice to form camps about the Fair grounds, where families, in their tents, can live pleasantly and independently during the Fair. It will be a glorious sight, at the State Fair, to see present the sons and daughters of labor from all parts of our State.

NEW GOLD DISCOVERIES.—About the middle of July, J. L. Adams, Wm. Cranston, Alex Rogers and Jas Clifton, left here to prospect the streams flowing from the Blue Mountains. They went by the Warm Springs Reservation, and following the West base of the mountains, came to the head of the West branch of Malheur River, about ten days' travel, or two hundred and forty miles from Tygh Valley. Here they found average prospects of ten cents to the pan, coarse gold. The pay dirt is one foot from the surface, and averages three feet to the bed rock. They remained there until the stock of provisions was exhausted, as the Indians became very hostile. Capt Kreamy from Eugene, was in that neighborhood, and was taking out large quantities. Capt Pierce was eighty miles further down the river, and was reported to be doing well. All left for back for provisions. Large parties of Columbia River Indians had left the Warm Springs Reserve, and gone over to the Malheur to cut off parties of whites. While here, Mr. Adams was told a band of Snakes fell upon them with what result, he could not learn. Their party being too weak in numbers to resist the Indians, Mr. Adams came down for recruits and expects to return in a week or ten days.

The locality of these new mines is near the divide of the Malheur and Deschutes river, and where the Meek Emigrant Company reported they picked up gold, and threw it away in 1845, not knowing the value of the metal. The mining region is very extensive. Mr. Adams heard of parties prospecting Salmon River with success, and one party had found good diggings at Salmon Falls, on Snake River.

Three men were killed at Goose Lake, about ten days ago, while looking for a place to herd their stock.

IRISHMEN INTERESTED IN THE SOUTHERN ARMY.—The correspondent of the London *Times* says that the Irish muster very strong in the Southern army. It is led to believe that necessity compels them to enlist. We cannot doubt that such has been the controlling influence. Indeed, one writer stated that he was told by many men in the Confederate ranks that they were given the choice of three evils—to enlist, go to jail or be hanged and that they preferred to enlist.

GOING TO CLEAN OUT THE DUTCH AND IRISH.—It appears that after the aristocratic gentlemen of the Southern Confederacy shall have gained independence of the industrial North, they are going to clean out the Germans and Irish, or fetch them down to a condition of vassalage. The noted Englishman corresponding with the London *Times* was told by a very intelligent Southern gentleman, formerly editor of a news paper there, that so soon as this matter is settled the confederates intend to take the law into their own hands, and allow no man to vote unless he is American born, "and by and by we will get rid of those Germans and Irish that disgrace us."

News Items

Mr G C Robbins, who has just returned from the mines, after an examination, gives it as his opinion, that the miners take out $60 000 worth of gold dust weekly. The old California miners say the gold is there.

A company of thirty volunteers have gone from Douglas county, to protect the Southern Oregon emigrant route.

The party that went out from Walla Walla to prospect and meet the emigrant trains went to Salmon river and returned. They heard that the trains were far behind.

VALUABLE DISCOVERY.—A route for a road from Denver City to Salt Lake, has been discovered which shortens the distance fifty hundred miles. The route is feasible, plenty of water, wood and grass.

NEW RIVER FOUND.—Mr. Jackson, a pioneer of the swamp and overflowed lands in California, has discovered in his surveys an hitherto unknown river, rising near Georgiana Slough, and emptying into the Mokelumne river. It is thirty feet deep.

Nicaragua has sent thirty bales of cotton to market. M. John Russell, an enterprising American gentleman, is the planter and shipper, and is doing a great deal towards the growing of cotton in that State, having already distributed some 50,000 pounds of seed in the department of Chinandagua. It is expected next year's crop will be very large.

Mr. Corbitt, of Santa Anita Ranch, Cal., has shown a fleece of Spanish Merino wool, shorn from a buck, that weighed twenty-four pounds, of thirteen months' growth, and in a clean and handsome condition. Its texture was as fine as the finest silk.

A letter from Los Angeles, Cal., says: "Political affairs are beginning to assume form and consistence, preparatory to the election next month. Candidates are about—some have already commenced scouring the country. In local affairs we have but two parties here—*Union* or *Disunion*—for the Government or against the Government."

The *Advertiser* still insists that the writ of *habeas corpus* should not have been suspended in the case of Merryman, though it tacitly admits that its suspension, and imprisonment of Judge Hall, by Gen. Jackson, was not a violation of the Constitution.

Essential difference—there be
Between tweedle dum and tweedle dee.

BY TELEGRAPH!

(Special Dispatch to the Oregonian.)

Progress of the Great Rebellion.

ST. LOUIS DATES TO AUGUST 19th.

Yreka, August 20, 18 1

Dry Creek Station, 18 miles east of Fort Churchill, Aug 19—The Pony with the mail from St Louis to Aug 10th arrived this morning at two o'clock—Cluter Station Pacific Telegraph, 50 miles West of Fort Kearny, August 14th.

WASHINGTON, Aug 19—The President today made the following appointments of Brigadier Generals, for the Volunteer forces all of them Prof Mitchell accepted being recommended by the New York Convention Delegation Col C Blenker Sigeum Varian, Major Worth Sherman, Aid to Gen McClellan Col Porter, Major regular army who distinguished himself in the Mexican War, Keating Aid, a graduate of West Point, Grimly Mitchell Chief of Astronomy graduate of West Point and cavalry officer.

A letter to-day from Lieut Tucker 1st Michigan regiment, dated Richmond 17th says he is a prisoner with hundreds of others, in that city. More than thirty officers are with them.

Late last evening Prince Napoleon and suite returned from Manassas.

Three regiments infantry and four of rebel infantry are in possession of Manassas.

When it was known at Manassas that Prince Napoleon was coming the enthusiasm was wild.

Beauregard and Johnson were both there and received the Prince with great respect.

The fortifications at Manassas are formidable and heavy guns, particularly of Sherman's battery, form an important part of the defences.

Beauregard informed the Prince, he captured 62 guns at Bull's Run.

The dead were but properly but meanly put under the ground. Some of their feet were seen above ground.

The soldiers at Manassas are very numerous, but poorly dressed.

On departing, the rebels gave the Prince a salute from the U. S. guns. On returning to Fairfax, Col Stewart, rebel approached the carriage of the Prince and said, I hope you like our fortifications?" The Prince replied, "Oh, pretty well." Stewart said, "I hope you will interfere for us when you get home." The Prince shrugged his shoulders at this, and said, "I know nothing."

Three companies of Kentucky cavalry arrived here this morning.

It is well authenticated that Smith, in custody in New York, is a member of the rebel Congress. He will be held as a hostage for Ely.

Wilson, of Chicago, has permission to raise a company of engineers and bridge-builders.

Night before last a rebel steamer attempted to leave Aquia Creek, and was driven back by the gun-boats. It was thought the rebel boat was injured.—The gun boat was not struck.—The *Page* carries 6 guns.

Navigation of the Potomac is unobstructed.

Wednesday night 5 boats, filled with armed men, were sent to cross over the river from the west side.

Several rebel prizes are lying at the wharf at Fort Washington.

Telegraphic communication is being established between this city and the several camps, including Fort Corcoran and Colonel Sherman's command, further up the river.

A despatch says that reliable intelligence is received that the rebels are concentrating at Fairfax and various other points between Point of Rocks and Alexandria. There are 8 to 10,000 at Fairfax, and most experienced officers consider their movements defensive. It is reported that they intended to engage our whole line from Harper's Ferry to Alexandria. If this be so, it will be foiled, for Gen. McClellan's preparations are equally available for offensive or defensive action.

Surgeon Wood has taken measures for carrying into effect the last act of Congress, by adding to the medical staff of the army a corps of cadets whose duty shall be to act as assistant hospital and ambulance tenders on the field, with the same rate of pay as the military cadets.

General Scott has issued stringent orders to prevent the transmission of telegraphic accounts of army movements, present or future.

The rebels are still trying to negotiate with the Indians, by offering annuities if they will forever allegiance to the government.—John Ross, chief of the Cherokees, remains loyal.

CAIRO, August 19.—The steamer Louisiana arrived from St. Louis with a heavy battery, for Bird's Point.

CITY.

SAILED.—The steamer *Sierra Nevada* sailed on Saturday evening for Victoria. By reference to another column, it will be seen that she is advertised to sail for San Francisco on Thursday next.

THE BELL TOWER—which has so long ornamented the levee at the foot of Alder street—is to be removed, by order of the Common Council.

Mr. G. C. Robbins, who returned from the Nez Perces mines last Friday, gives us the following: About 2,500 practical miners are at work on Rhodes' Creek, Gro Fino, Canal Gulch, and French Creek. Nearly all are doing well. There are also four or five thousand men who make a living in some other way—many of whom are leaving for the South Fork of Clearwater, where new and rich discoveries have been made. Mr. Robbins visited some of the principal claims, and gives us the following names of miners, as well as the amount of dust each man was taking out: On Rhodes' Creek—Jarvis & Co., four men, $10 per day to the hand; James & Co., five men, $10 per day; McCarty & Co., four men, $10 per day; Vesay & Co., eight men, $7 to $8 per day; Hook & Co., six men, $10 to $12; Jones & Co., four men, $10 to $12; Dunbar & Asar, $10 to $12; Shafear & Co., fourteen men, $60; Pain & Co., twenty men, $70; Mortimer & Co., twenty-four men, $70 to $80; Match & Co., five men, $15 to $20; Thomas & Co., fourteen men, $18 to $20; Rillery & Co., seventeen men, 18 to 20 ounces per day for company; Blakely & Co., nine men, $16 to $20 per hand; Smalley & Co., ten men, $16; Boon & Co., eight men, $17; California Co., nine men, $16; Newland & Co., six men, $16; Hickock & Co., five men, $16 to $20; Let 'Er Rip & Co., eleven men, $16 to $20; Rhodes & Co., fifteen men, $300 per day, on an average, for the Company; Hoyt & Co., eight men, $12 per day to hand; Fetrin & Co., $16; Sparks & Co., $15; Russ & Co., $15. On French Creek, the following named miners are making on an average, from $10 to $12 per day: Messrs. Harkum, John Lesot, Antoine Pillir, Quirt, T. Lapoint, M. Guison.

Details of War News.

THE KILLED, WOUNDED, AND MISSING.—The New York *Herald* of the 29th July, sums up all the returns and official reports it had received up to that date, and states the following as the results of the battle of Bull Run or Manassas:

Killed	280
Wounded	729
Missing (supposed prisoners)	477
Total	1,486

The N. Y. *News*, in alliance with the traitors, and therefore probably desirous of magnifying the losses of the Federal forces, gives the following account:

Killed	406.
Wounded	751.
Missing	1,025.
Total	2,182.

GREATLY SCARED.—In Clark county, Mo., the Secessionists called a Peace Convention, to meet at Waterloo on the 29th of July. They were frightened at the war they had created, and wanted to adopt some measure by which they could bring about peace and avoid examination. In all of the skirmishes in their vicinity they had lost numbers of their party, and they found that it was useless to cope with superior arms, and superior courage of the Home Guards.

THE NEW STATE GOVERNMENT IN MISSOURI.—Governor Gamble has promised peace to the people of that State, and it is believed he will do it. He must, of course, call upon those opposing the Federal power to lay down their arms and obey the laws. If they obey this injunction, the Federal troops will be withdrawn; if not, then Governor Gamble must aid the Federal army in its endeavors to crush treason. There is no doubt the new Governor will adopt this course. If he does, there will be peace. The provisional Governor will hold office until the first Monday in November, when an election will be held by the people.

Notice.—The next Annual Meeting of the Congregational Association of Oregon will be held at Oregon City on Thursday, the 5th day of September, at 10 o'clock, A. M.

D. DICKINSON, Sec'y.

Hostetter's Celebrated Stomach Bitters—A specific for dyspepsia diarrhœa, dysentery general debility, chills and fever, liver complaint, bilious remittent fevers, and the pains and weaknesses which creep upon us in old age. For these ailments we quietly invited a trial and a verdict. The trial has come off, the verdict has been rendered, and the Bitters are to-day the most popular remedy, for the time they have been in existence, in this or any other country. It lives and continues to thrive and increase in popularity with a rapidity simply because the world wants it, will have it, cannot do without it. The dyspeptic demands it, for his only help the victim of diarrhœa or dysentery believes in it, the bilious sufferer dare not let one bottle run out before he gets another. Both sexes, all ages, all classes, regard it as the most wonderful invigorant ever compounded. Hence the enormous demand. Sold everywhere by Druggists, Liquor Dealers, and Grocers.

REDINGTON & CO., Agents,

409 & 411, Clay St.,

August 9, 1861. d&w7 San Francisco.

The Medical and Surgical Institute of DR. L. J. CZAPKAY is already secured in a position which places it, as well as its proprietor, far above the assaults of envy and professional malice. In the schools of France, the highest prizes are often awarded to practitioners in this department of medical science, and they occupy, with others, an equally lofty position. In the profession. His card is an illustrious example, a shining light among the philosophical stars of his age in Europe, and Dr. Czapkay has fully equalled him in this country; as a proof of which the Philadelphia College of Medicine complimented him with a Diploma, and the Library attendance degree. Selecting this as his field of operation, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary Army, for more extended labors Dr. L. J. Czapkay has lent his earnest attention to the cure of chronic and private diseases in which he has become so great an expert, that he is now regarded as the LEADER in this branch of his profession throughout the United States, and his portrait and biography are published as matter of interest to their readers in the most exclusive Journals. The Doctor's offices are at his Medical and Surgical Institute on Sacramento street, corner of Leidesdorff nearly opposite the buildings of the Pacific Mail Steamship Company, San Francisco. We ask particular attention of our readers to the sworn certificates of remarkable cures in another column of this paper. Persons not wishing to lose time in corresponding, please enclose $20 in their letters, and they will get immediate attention to their cases. Address, L. J. CZAPKAY, M. D., San Francisco, Cal. junc26dawly

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

Commercial and Financial.

San Francisco papers of the 18th, represent the produce market to be without change. Foreign liquors are hardening in price. Some Isthmus butter had been lately arrived, and was sold at 27 cts. Eastern Bacon, by auction, sold at 8 and 8½ cts. at 3 months. Oregon Apples sold at 4 cts. Potatoes were advancing—sales at $1 12½ per 100 lbs.

The Stockton *Independent*, remarking upon the low prices for wheat, is of opinion that the war in the Eastern States, must leave the wheat crop one half—which will open a market for our surplus.

The Yreka *Journal* complains of the extreme dullness of the times at Yreka. This is attributed to the want of water in the mines and to the stampede to the Nez Perce mines.

We have the Victoria papers to the 22d, but they do not enlighten us in regard to the prices of produce in that city.

Exports to Victoria by the *Santa Nrada*—1731 half sacks flour, 445 boxes apples, do eggs, 9 barrels butter, 27 pkgs [illegible] 45 do sundries, 10 coops chickens.

Legal Notice.

In the Circuit Court of the State of Oregon for Multnomah County. A. M. Barnett, Complainant, vs. Orsamus Tamillot Defendant. In Chancery.

To Orsamus Tamillot, Defendant:

In the name of the State of Oregon you are hereby notified that A. M. Barnett has filed his bill of complaint against you in the above entitled suit in which he claims that on the 14th day of June A. D. 1858 at Portland in said County and State he delivered to you certain promissory notes for the sum of two hundred dollars each to ten days after date with interest at the rate of ten per cent per month until paid, which said promissory notes you have not paid, and that there is due him thereon the sum of three hundred and four dollars, for which sum he prays a decree against you, and that the mortgage deed upon the following described premises, to wit: Lots three, in Block eight of Holbrook's Addition to the City of Portland, in the County of Multnomah and State of Oregon, be foreclosed and sold to satisfy the amount due upon said mortgage, to wit: the sum of six hundred dollars and interest at ten per cent per month from the twelfth of September A. D. eighteen hundred and fifty-nine, and for a judgment over against you for any deficiency which may remain due after the application of the proceeds of the sale of said property to the payment of said debt, and your costs and disbursements in this suit, in the Circuit Court of the State of Oregon for the County of Multnomah on the second Monday of November A. D. 1860, and then and there to answer the said bill of complaint or the same will be taken as confessed, and the prayer thereof will be granted, &c. &c.

In witness whereof I have hereunto set my hand and affixed the seal of the Court this 25th day of August, A. D. 1860.

[L. S.] SHERRICK MORRIS, Clerk.

JOHN C. BUTTERWORTH'S

CELEBRATED

CHEMICAL SOFT SOAP

THE MOST ECONOMICAL AND BEST Soap ever offered.

PATENTED OCTOBER, 1860.

This Soap is made by a new process, and is the result of many years experiment. It is the cheapest, most economical and best Soap ever offered to the public. It will make more soap with the same quantity of grease than any other process known. Each barrel contains the proper proportion of Caustic Potash and Grease to make sixty pounds of Soap.

Put up in five and ten gallon cans. Each can will make sixty or three hundred and twenty pounds of soap.

Barrels and packages must be returned within eight months from date of purchase, or they will be charged for.

The only Soap Manufactory on the coast, and the only one in the United States.

Refined Potash at Butterworth's Chemical Soap Factory, but cheaper to use than Soda.

J. BUTTERWORTH, San Francisco.
Special Agent for the Pacific Coast.
